About CATAGEN

CATAGEN, a carbon-negative company - their purpose is to clean and decarbonise the air of the future. CATAGEN is a market expert in providing best-in-class emissions data to the automotive industry, providing physical and virtual testing of vehicle catalytic converters for the world's leading brands.

Careers

Join us to clean and decarbonise the air

Values

ONE CATAGEN- We put 'we' before 'me' working across boundaries, holding each other accountable and working as a cohesive team.

FEARLESS- We challenge ourselves to push beyond what we think is possible by taking risks and learning new skills.

CUSTOMER OBSESSED- We actively engage, listen and learn from our customers, making it easy to work with us. We deliver solutions in a timely and accurate manner.

ECONOMICALLY DRIVEN- We're ambitious in our 'financial goals' whilst being prudent with resources. We respect that we are a corporate business whose first goal is to be financially secure and to grow and identify new opportunities.

SUSTAINABILITY- We built CATAGEN 'to clean and decarbonise the air', to impact climate change through the development of innovative Net Zero Technologies.
