## About CATAGEN

CATAGEN is a pioneering testing facility delivering industry leading emissions data to global OEMs and stakeholders. Based in Belfast, our independent services provide unrivalled metrics to optimise catalyst development and reduce harmful tailpipe emissions.

Technology, talent, and a united sense of purpose have taken CATAGEN to launch ClimaHtech, a configurable system which uses advanced climate technologies to produce green hydrogen and e-fuels.

Our testing and climate technologies are shaping the environment of our future by working towards cleaner air for our cities.

## Values

**ONE CATAGEN** - We put 'we' before 'me' working across boundaries, holding each other accountable and working as a cohesive team.

**FEARLESS** - We challenge ourselves to push beyond what we think is possible by taking risks and learning new skills.

**CUSTOMER OBSESSED** - We actively engage, listen and learn from our customers, making it easy to work with us. We deliver solutions in a timely and accurate manner.

**ECONOMICALLY DRIVEN** - We're ambitious in our 'financial goals' whilst being prudent with resources. We respect that we are a corporate business whose first goal is to be financially secure and to grow and identify new opportunities.

**SUSTAINABILITY** - We built CATAGEN 'to clean and decarbonise the air', to impact climate change through the development of innovative Net Zero Technologies.
